

Bale clamp

integral sideshift

PBK
ISO II/III

The **bale clamp PBK** is made with double T steel profiles. This type of profile supports excellent visibility through the clamp and allows for a reduced lost load centre. The smooth and flush arms allows for dense stacking of bales. A integral sideshift is fitted as standard.

- 2 hydraulic functions required
- includes hoses and couplings

- other arm lengths upon request
- cylinder protection upon request

- constant sideshift +/- 100 mm upon request
- bronze bearings upon request
- wear strips under frame upon request
- wear strips welded under arms as standard
