

# Paper roll clamp 360°

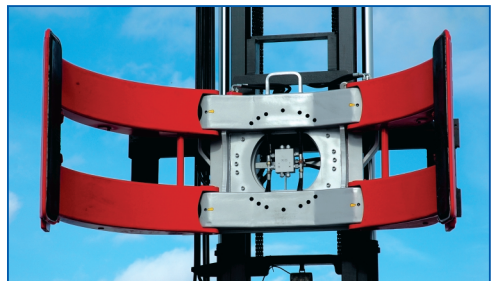

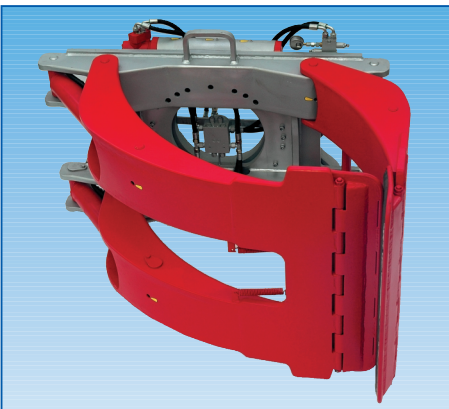

**PRK**

The **paper roll clamp PRK** is able to take rolls vertically or horizontally and rotates 360°. The short arm can be chosen fixed (PRK-S) or variable positioned (PRK-B) due to an extra cylinder. The rotation is provided by the Durwen direct drive rotorator.

- 2 hydraulic functions required
- includes hoses and couplings
- safety break as standard
- 10 mm rubber coated pads upon request
- 20 mm rubber coated pads upon request
- standard pad surface structured steel
- other pad surfaces upon request
