

Sideshifting fork positioner

WZV

integral sideshift (via valve)

The sideshifting fork positioner WZV is extremely strong using a round bar system keeping the lost load centre to a minimum. It is possible to mount hook-on forks as well as bolt-on forks with this attachment. The carriage width of the lift truck has to be at least equal to the width of the attachment.

type	lift truck capacity tons	ISO	capacity kg/mm LC	B mm	opening range A mm	b mm	V LLC mm	ESP COG mm	weight kg
