

Sideshifting fork positioner

ZVP-S
ISO II/III

constant sideshift, bolt-on forks

The **sideshifting fork positioner ZVP-S** is designed to allow fork spread beyond the width of the carriage. This flexible feature is ideal in situations where space is important. A huge variety of loads can be handled with extreme efficiency. This strong and durable attachment has excellent visibility and minimised lost load centre with the use of innovative double T / E profiles. The attachment is equipped with constant sideshift and bolt-on forks as standard. Clamping of loads is not possible with this attachment.
